Product Overview, Boston Acoustics VSi 580, priced and sold per individually.

VS Series Custom Speakers are the ultimate in high performance audio. VS Series speakers take key innovations from our most touted traditional loudspeakers and skillfully adapt them for in-wall and in-ceiling applications. Features include die-cast woofer baskets and massive front baffles that add rigidity while ensuring precise alignment of driver components for unparalleled accuracy and near-zero distortion. We also use die-cast aluminum to create a patented pivoting tweeter cup that acts as a heat sink – bringing concert hall quality to any room. Finally, all VS Series models include a boundary compensation switch that allows the sound to be precisely tailored to counteract the effects of being installed too close -- or too far from, a corner. The result is optimum sound from any installation location.

- Reduced bezel design
- 2-Way
- LCR
- 8-inch DCD copolymer woofer with cast basket
- Dual 1-inch aluminum VR tweeters
- Magnetic grille attachment

Recommended Amplifier Power

10-150 watts

Nominal Impedance

8 ohms

Frequency Response

(±3dB) 45Hz-22kHz

Mounting Depth (from surface)

5" (127mm)

Bass Unit

8" (200mm) cast DCD copolymer

Crossover Frequency

2600Hz Sensitivity (1 watt (2.83v) at 1m) 89dB

Tweeter

1" (25mm) VR aluminum dome

External Dimensions

12 -5⁄16" (313mm)

Mounting Hole Cutout
